

Marlon Salinas

Software Engineer

msal_33@yahoo.com | (512)-800-2405 | Austin, TX

Idea-driven software engineer that relishes in creating software that can be used to improve the lives of others while providing an incredible, intuitive user experience, and a writer that enjoys bringing ideas to life. I create solutions to complex problems, and I take every opportunity I can to grow professionally and personally.

PROFESSIONAL SKILLS

HTML & CSS | JavaScript | React | Ruby | Rails | Node.js | Git | PostgreSQL | Mongoose | MongoDB | jQuery | Spanish

EMPLOYMENT HISTORY

Surgical Care Technician

Northwest Hills Surgical Center, Austin, TX | Nov 2018 - Dec 2019

- Set up and calibrated surgical tech to the preference of surgeon
- Ensured that surgical tech and operating rooms were sterile before surgeries began
- Quickly and efficiently disinfected rooms after surgeries in order to get the next procedure underway as soon as possible
- Maintained clear communication with the recovery wing in order to make sure that the needs of patients were being satisfied

Cashier/Expeditor

Burger King, Pflugerville, TX | May 2015 - Feb 2016

- Assessed customer needs and responded to questions they may have
- Provided professional and courteous service at all times
- Worked in unison with coworkers whom I saw more as teammates
